Xanderia AI Council

Features and how-to guide

Ask questions · Pressure-test plans with an AI council · Put decisions into action

Xanderia Services Sdn Bhd · Internal · September 2026 · Runs on-premises on Qwen 2.5

What's inside

Part	For	Covers
1. What it is	Everyone	The three things it does, how a question flows, where it runs
2. Features at a glance	Everyone	The main features on two pages (the full list is in part 8)
3. Using it	All staff	Asking, the council, reading a verdict, the report, sharing, putting a plan into action, tasks you receive
4. Doing more	All staff	Templates, script checker, what-if, drafting documents and Word, the decision register, calculators, arrears files, Telegram, voice, Bahasa Malaysia screens, attaching documents, company memory
5. Loan and Collections work	Collections, Finance, Credit	Portfolio report, salary-deduction reconciliation, payslip affordability, notis blast, document templates (mail merge)
6. Running it	Admins, department leads	Users and invites, staff directory, Action Crew and email, knowledge and freshness, prompts, models, heatmap, weekly digest, red flags, lead setup checklist, company memory, loan-tool settings, go-live checklist
7. Privacy, safety and tips	Everyone	What stays on-premises, what needs approval, good questions, timing, FAQ
8. Complete feature list	Everyone	Every feature, what it does and where to find it, on a few pages

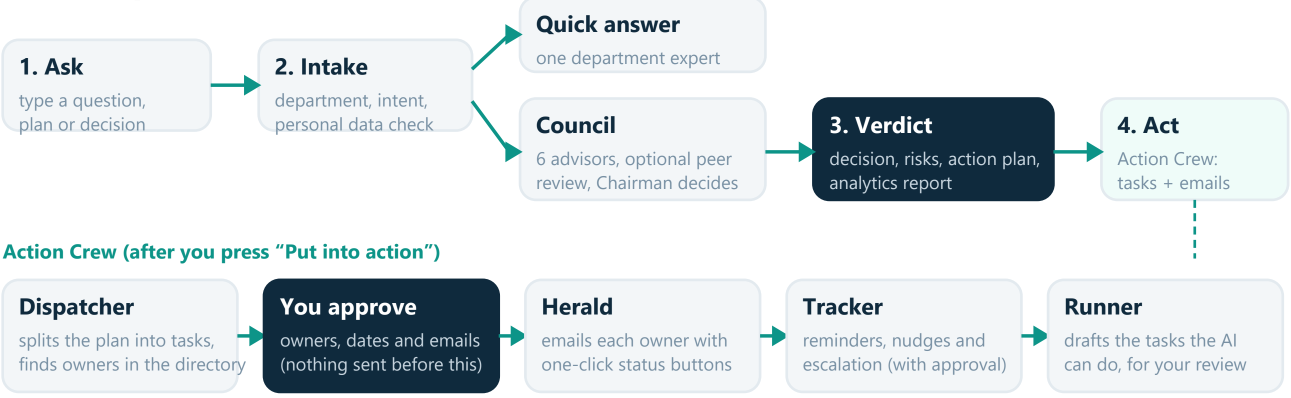
Remember. In the app, press the **?** button (top of each page, or next to EN / BM in the sidebar) to open the part of this guide for that page. Everything the Council says is **advice**. Final decisions sit with the responsible staff and management. Legal and finance answers must be reviewed before acting.

1 · What it is

Xanderia AI Council is our internal advisory assistant. Any employee, in any department, can use it to:

	What you get	Typical use
Ask	A fast, direct answer from an advisor for the department you choose, grounded in that department's documents when they are loaded.	"What must a staff data-access policy cover under PDPA?"
Council	Six AI advisors with different mandates look at your plan or decision independently. A Chairman weighs them and returns one verdict with an action plan, risks, open questions and a confidence level.	"Should we offer 60-90 DPD customers a 3-month restructuring?"
Act	The Action Crew turns the verdict into tasks, finds the right people, emails them after you approve, and follows up until the work is done.	Put the restructuring pilot into motion with owners and dates.

How a question flows



1. Ask
type a question, plan or decision
2. Intake
department, intent, personal data check
Quick answer
one department expert
Council
6 advisors, optional peer review, Chairman decides
3. Verdict
decision, risks, action plan, analytics report
4. Act
Action Crew: tasks + emails
Action Crew (after you press "Put into action")
Dispatcher
splits the plan into tasks, finds owners in the directory
You approve
owners, dates and emails (nothing sent before this)
Herald
emails each owner with one-click status buttons
Tracker
reminders, nudges and escalation (with approval)
Runner
drafts the tasks the AI can do, for your review

You can leave the page while the council works. You'll get a notification when the verdict is ready.

Where it runs

Web gateway
HTTPS (Caddy)
Council app (API)
login, roles, chat, reports, action plans, audit log
Database
conversations, knowledge base, tasks, audit log (PostgreSQL)
Email (optional)
outbox by default: nothing leaves. SMTP or n8n when enabled; internal addresses only
Council worker
runs the advisors, Chairman and Action Crew; reminders; email sending
Qwen 2.5 on the GPU server
Ollama: qwen2.5:14b and nomic-embed-text (on-premises)

Everything in the dashed box runs on Xanderia's own servers.

The AI model (Qwen 2.5, 14B) runs on Xanderia's own GPU server. Questions, documents and verdicts are not sent to any outside AI service. Every model call is written to an audit log.

2 · Features at a glance

Feature	What it does
Auto / Quick / Council	Auto lets the system pick. Quick gives one fast answer. Council convenes the six advisors.
Department selector	Ask as your own department or “ask another department”. Its expert answers, but you still only see documents you have access to.
Clarifying questions	Before a council run, it may ask up to 3 short questions if key facts are missing. Answer them, or skip and let it proceed on stated assumptions.
Live progress	See Intake → Advisors → (Peer review) → Chairman as it happens. Advisors' opinions stream in as they write.
The verdict	Decision, why, disagreements resolved, action plan (owner, timeline), risks rated by likelihood and impact, open questions, confidence.
Advisor stances	Each advisor declares For / Conditional / Against with a conviction score. A summary bar shows how the council split.
Peer review (optional)	Advisors critique each other anonymously and score each answer 1–5. Adds about half a minute.
Analytics report (PDF)	Executive summary, stance map, peer scores, risk heat map, action-plan timeline, disagreements, and every advisor's full opinion.
Follow-ups	Ask a follow-up in the same conversation, or click an open question to answer it and have the council reconsider.
Share	Copy a read-only link for a colleague (they must be signed in). You can revoke it.
Knowledge base	Department and company-wide libraries (PDF, Word, Excel, text). Answers cite the document and page, section or sheet.
Put into action	The Action Crew: Dispatcher, Herald, Tracker and Runner (see 3.7–3.9).
Tasks and notifications	Your assigned tasks, the plans you started, and a bell for updates, nudges and approvals.
History	Search, pin, rename and delete conversations. You can delete your whole history at any time.
Council templates new	Guided starters (new product, collections change, vendor selection, hiring plan, policy draft) that ask for the facts the council needs.
Customer script checker new	Paste an SMS, letter or call script: tone, clarity, fair treatment and PDPA check, with a rewrite in English and BM.
What-if new	Change one assumption under a verdict. Two advisors re-run and the Chairman updates the verdict, in about half the time.
Draft a document, Word new	Turn an answer into an SOP, policy, customer letter or staff memo. Download any answer as an editable Word file.
Decision register new	Record verdicts as decisions. At 30 and 60 days you're asked whether it worked. One-page meeting brief for any period.
Calculators new	Instalment and EIR, early settlement rebate, roll rates, cost to collect, each with “Ask the council about this”.
Arrears file analysis new	Upload a collections export: DPD buckets by branch and product, then ask the council. The file isn't stored.
Telegram and voice new	Ask from Telegram, or speak your question in BM or English. Speech is transcribed on our own server.

Feature	What it does
Bahasa Malaysia	Ask in BM and the answer comes back in BM. The whole app can also be switched to BM (EN / BM toggle).
Compliance seat, red flags new	A Compliance Officer joins the council for sensitive departments. Requests that look like harassment, fraud, data misuse or discrimination are flagged to Compliance.
Attach documents new	Attach a PDF, Word, Excel or text file to a question and the council judges the plan in it.
Company memory new	Lessons from recorded outcomes, answers approved by leads, and department house rules are recalled for similar questions.
Portfolio report new	Month-end loan export → NPL, PAR, buckets, branch/product/employer, vintage, roll rates; monthly trend, council commentary, PDF.
Deduction reconciliation new	Loans vs the employer or Angkasa deduction file: not deducted, short, over, unknown, with a CSV.
Payslip affordability new	The payslip extractor report → affordable / borderline / not affordable against the deduction limit, with the largest instalment allowed.
Notis blast new	The monthly missed-deduction letters from the masterlist: every row checked, letters and Outlook drafts for the batch.
Document templates new	Word templates with {{tags}} mapped to spreadsheet columns: one document (and email draft) per row.
In-app guide new	The ? button opens this guide at the part for the page you are on.
Admin	Users, invites, departments, prompts with versions and a test sandbox, model settings, knowledge base with review dates, staff directory, Action Crew, email outbox, audit log, heatmap, weekly digest.

Here are 3 tips for creating a clear Standard Operating Procedure (SOP) document:

1. **Use simple and concise language**: Avoid using technical jargon or complex terms. Write in a way that is easily understood by all employees. Use short sentences and paragraphs to make the content easy to read and follow.
2. **Break down the process into clear steps**: Divide the process into logical and sequential steps. Number the steps and provide clear instructions for each one. Use bullet points or numbered lists to make the steps stand out.
3. **Include visual aids**: Incorporate diagrams, flowcharts, or images to illustrate the process. Visual aids can help employees better understand the steps involved and make the SOP document more engaging.

Remember, the purpose of an SOP document is to provide clear and concise instructions that can be easily followed by employees. By keeping the language simple, breaking down the process into clear steps, and including visual aids, you can create a SOP document that is easy to understand and follow.

Give me 3 tips for a clear SOP document.

Ask a question, or bring a plan or decision for the council... (English or Bahasa Malaysia)

☐ Peer review

Advisory output only. Final decisions sit with the responsible staff and management. Legal and finance answers must be reviewed before acting.

A Quick answer. The green "Processed on-premises" badge confirms nothing left Xanderia's servers.

Tip. If your question depends on something you didn't say (which product? which branch?), the advisor may ask you briefly, or state the assumption it made. Adding those details up front gives better answers.

3.3 Bring a plan or decision to the council

1. Choose **Council** (or Auto: plans and decisions go to the council automatically).
2. Describe the situation: the goal, the numbers you know (volumes, amounts, budget, staff), the constraints and the deadline.
3. Tick **Peer review** if you want the advisors to critique each other first (slower, sharper).
4. If key facts are missing, the council asks up to 3 questions first. Answer them in one message, or press **Skip** to proceed on its stated assumptions.

We are thinking of opening a new branch. Should we?

Before the council meets, a few questions so the advice fits your situation:

1. What is the goal of opening this new branch?
2. What is the estimated budget or amount needed to set up and operate this new branch?
3. What is the expected time frame for opening and fully operating the new branch?

If you skip, the council will assume:

- The new branch will be opened for the same product and customer segment as the existing branches.
- The Technology department will be involved in setting up the IT infrastructure for the new branch.
- The decision to open a new branch will be based on the projected return on investment and alignment with the company's overall strategy.

Answer the council's questions here (all in one message), or press Skip above...

Advisory output only. Final decisions sit with the responsible staff and management. Legal and finance answers must be reviewed before acting.

Before the council meets: clarifying questions, and what it will assume if you skip.

Collections: should we offer a one-time 3-month payment restructuring to customers 60-90 days past due on personal financing (RM 5k-30k), instead of sending them to field collection? We have about 400 such accounts and 6 collection officers.

CHAIRMAN'S VERDICT

Confidence: medium

The council recommends offering a one-time 3-month payment restructuring to customers 60-90 days past due on personal financing (RM 5k-30k). This approach will likely improve customer satisfaction, reduce the workload of the 6 collection officers, and potentially minimize the need for field collections.

WHY

The majority of advisors believe that offering a one-time payment restructuring will improve customer relations, reduce the need for field collections, and potentially increase customer retention. The proposal aligns with the goals of improving operational efficiency and enhancing customer experience. However, it is crucial to carefully assess the potential impact on cash flow and the long-term financial implications of this decision.

DISAGREEMENTS RESOLVED

The Contrarian and The Expansionist

A: The Contrarian argues against offering a one-time 3-month payment restructuring, as it would effectively extend credit to already delinquent customers, increasing financial risk.

B: The Expansionist supports leveraging existing digital infrastructure to handle the payment restructuring process and implementing targeted digital communication and data-driven risk assessment.

Decision: The council ruled in favor of The Expansionist, as the proposal aligns with our department's

Ask a question, or bring a plan or decision for the council... (English or Bahasa Malaysia)

Advisory output only. Final decisions sit with the responsible staff and management. Legal and finance answers must be reviewed before acting.

The Chairman's verdict sits on top: the decision, confidence, the reasoning, and every disagreement between advisors with how it was settled and why.

Collections: should we offer a one-time 3-month payment restructuring

Technology · asked by Administrator · 24 Sept 2026, 2:16 am · plan

THE QUESTION

Collections: should we offer a one-time 3-month payment restructuring to customers 60-90 days past due on personal financing (RM 5k-30k), instead of sending them to field collection? We have about 400 such accounts and 6 collection officers.

CHAIRMAN'S VERDICT

The council recommends offering a one-time 3-month payment restructuring to customers 60-90 days past due on personal financing (RM 5k-30k). This approach will likely improve customer satisfaction, reduce the workload of the 6 collection officers, and potentially minimize the need for field collections.

4 · 0 · 1	5	4	Medium
Advisors for · conditional · against	Risks (3 high impact)	Action steps over ~16 weeks	Chairman confidence

CONFIDENCE

What would change this recommendation: Significant changes in the results of the pilot program or unforeseen legal and regulatory challenges could alter the council's confidence in the recommendation.

Why

The majority of advisors believe that offering a one-time payment restructuring will improve customer relations, reduce the need for field collections, and potentially increase customer retention. The proposal aligns with the goals of improving operational efficiency and enhancing customer experience. However, it is crucial to carefully assess the potential impact on cash flow and the long-term financial implications of this decision.

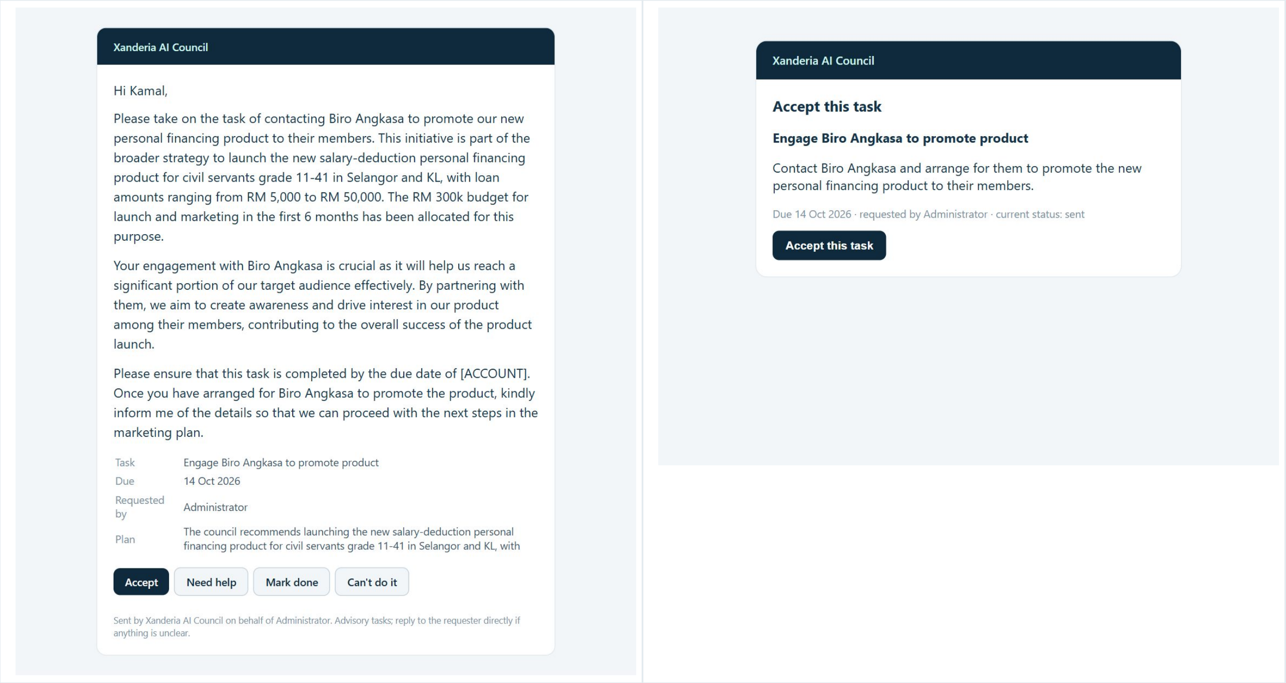
Advisory output only. Final decisions sit wi

The bell collects plan-ready alerts, accept/done updates, “needs help” notes, overdue nudges and escalation requests.

3.9 If you receive a task

You'll get an email from the Council on behalf of the colleague who asked. Use its buttons. No login is needed; each button opens a short confirmation page.



Hi Kamal,

Please take on the task of contacting Biro Angkasa to promote our new personal financing product to their members. This initiative is part of the broader strategy to launch the new salary-deduction personal financing product for civil servants grade 11-41 in Selangor and KL, with loan amounts ranging from RM 5,000 to RM 50,000. The RM 300k budget for launch and marketing in the first 6 months has been allocated for this purpose.

Your engagement with Biro Angkasa is crucial as it will help us reach a significant portion of our target audience effectively. By partnering with them, we aim to create awareness and drive interest in our product among their members, contributing to the overall success of the product launch.

Please ensure that this task is completed by the due date of [ACCOUNT]. Once you have arranged for Biro Angkasa to promote the product, kindly inform me of the details so that we can proceed with the next steps in the marketing plan.

Task	Engage Biro Angkasa to promote product
Due	14 Oct 2026
Requested by	Administrator
Plan	The council recommends launching the new salary-deduction personal financing product for civil servants grade 11-41 in Selangor and KL, with

Sent by Xanderia AI Council on behalf of Administrator. Advisory tasks; reply to the requester directly if anything is unclear.

Accept this task

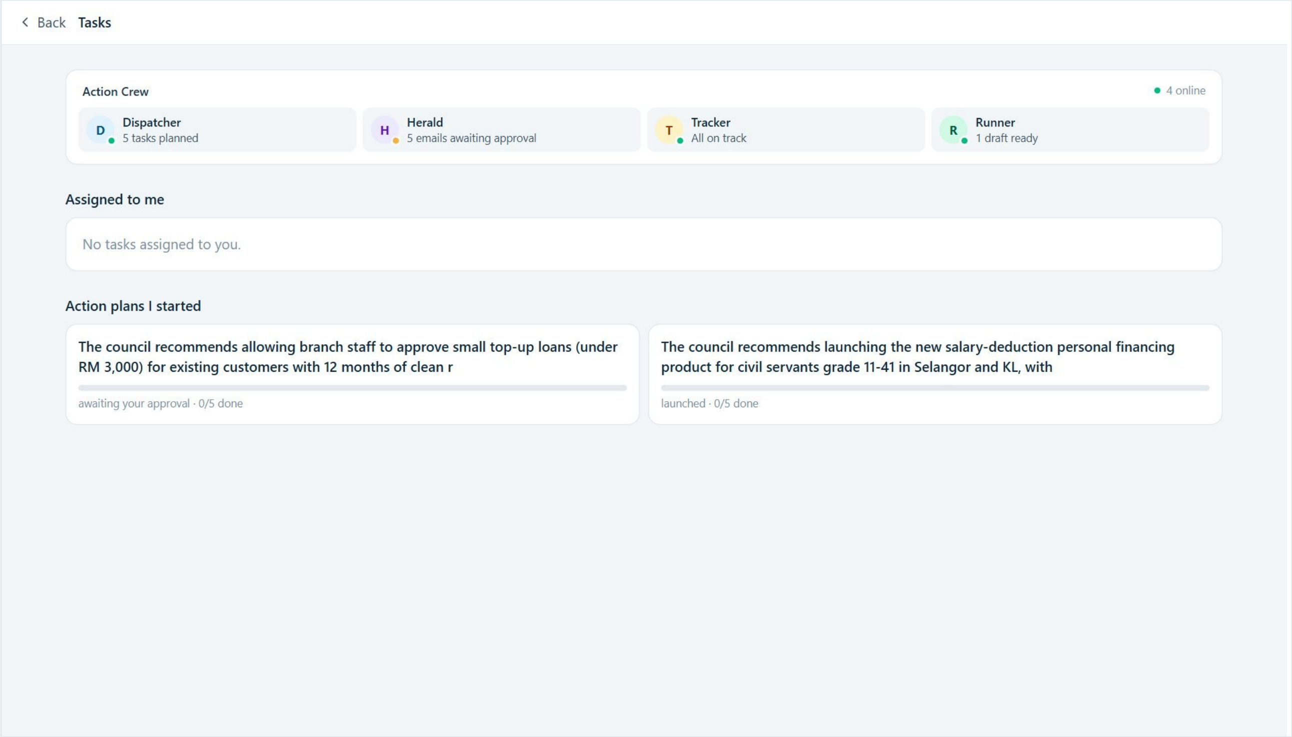
Engage Biro Angkasa to promote product

Contact Biro Angkasa and arrange for them to promote the new personal financing product to their members.

Due 14 Oct 2026 · requested by Administrator · current status: sent

Left: the task email with Accept / Need help / Mark done / Can't do it. Right: the confirmation page ("Need help" and "Can't do it" ask for a short note).

You can also open **Tasks** in the app to see everything assigned to you and update it there.



Dispatcher: 5 tasks planned

Check a customer script

Channel: SMS

Customer situation: 45 days past due, second reminder

The script:
FINAL WARNING. You owe RM2,350. Pay by tomorrow or we will inform your employer and send our team to your house. Your family will know you are a debtor.

Verdict

Do not send. The tone is aggressive and threatens the customer's family and privacy. This could be seen as harassment under BNM guidelines.

Issues

Issue	Why it matters	Fix
Aggressive tone	Threatens the customer's family and privacy, could be seen as harassment.	Use a polite but firm tone, avoid threats or mentioning the customer's family.
Incorrect amount	The script mentions RM2,350, but it's a second reminder, so the amount should be confirmed.	Confirm the amount owed in the script.
No contact info	The script does not include how the customer can contact Xanderia Services Sdn Bhd.	Include clear contact information for the customer to reach out.

Suggested version (English)

Ask a question, or bring a plan or decision for the council... (English or Bahasa Malaysia)

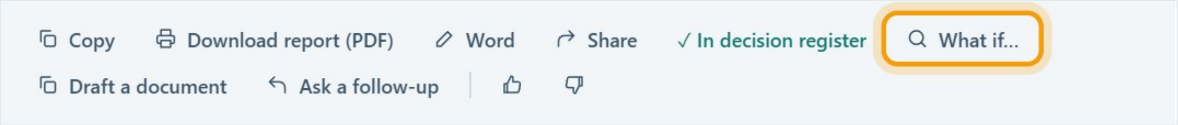
Advisory output only. Final decisions sit with the responsible staff and management. Legal and finance answers must be reviewed before acting.

4.3 Ask "what if..."

Test a verdict against a different assumption without running the whole council again. The **Contrarian** and the **Executor** re-run; the other advisors' opinions carry over; the Chairman updates the verdict and says what changed. It takes about half the time of a full council.

WALKTHROUGH · Change one assumption

1 Under a council verdict, press **What if...**.



Copy
Download report (PDF)
Word
Share
✓ In decision register
What if...
Draft a document
Ask a follow-up

2 Type the changed assumption, for example "only 40% of eligible customers accept" or "the budget is halved", and press **Re-run**.

- **Civil servants:** Government employees who work for the public sector.
- **Biro Angkasa:** The credit union for government employees in Malaysia.

1. Product Development The Technology department will develop the new salary-deduction personal financing product, targeting civil servants grade 11-41 in Selangor and KL. The loan amounts will range from RM 5,000 to RM 50,000. [TO CONFIRM: Add details on product development process and timeline]

2. Marketing and Promotion The Marketing department will allocate a budget of RM 300k for the first 6 months of marketing and promotion. This budget will be used to create marketing materials, engage Biro Angkasa to promote the product to their members, and set up a targeted online and offline marketing campaign to reach the target audience. [TO CONFIRM: Add details on marketing strategies and promotional activities]

3. Launch Plan The Sales department will oversee the launch plan, which includes scheduling meetings with Biro Angkasa representatives, setting up a launch event for civil servants, and preparing a press release for media coverage. [TO CONFIRM: Add details on launch event and press release]

Responsibilities:

- **Technology department:** Develop the new salary-deduction personal financing product.
- **Marketing department:** Allocate and manage the RM 300k marketing and promotion budget.
- **Sales department:** Oversee the launch plan and execution.

Review and Approval: This memo will be reviewed by the council and approved by the CEO. Any changes or updates to the plan will be communicated to all staff members. [TO CONFIRM: Add details on review and approval process]

[TO CONFIRM: Add any additional details or information that were not covered in this memo.]

Ask a question, or bring a plan or decision for the council... (English or Bahasa Malaysia)

Advisory output only. Final decisions sit with the responsible staff and management. Legal and finance answers must be reviewed before acting.

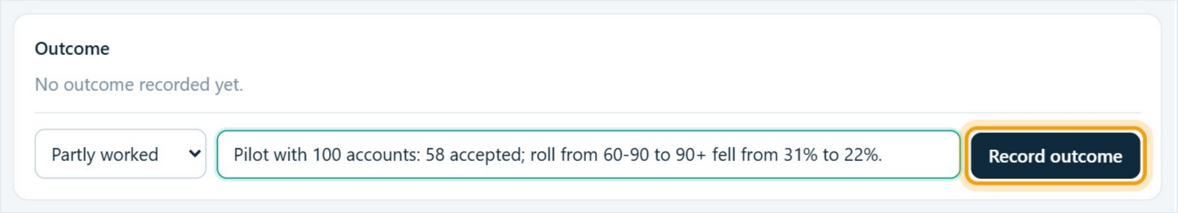
Your action plan is ready for review

WALKTHROUGH · From verdict to outcome

4 On the decision page, choose **Worked**, **Partly worked**, **Did not work** or **Too early to tell**, add what happened (numbers help), and press **Record outcome**.



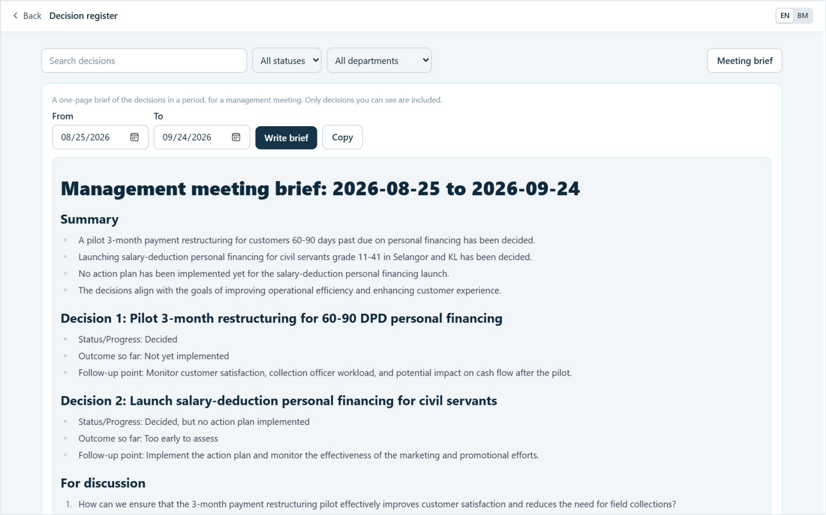
Outcome

No outcome recorded yet.

Partly worked

Pilot with 100 accounts: 58 accepted; roll from 60-90 to 90+ fell from 31% to 22%.

5 **Meeting brief:** on the register, press **Meeting brief**, choose the dates and press **Write brief**. You get a one-page summary of the decisions, their progress and outcomes, and questions for discussion.



A one-page brief of the decisions in a period, for a management meeting. Only decisions you can see are included.

From 08/25/2026

To 09/24/2026

Management meeting brief: 2026-08-25 to 2026-09-24

Summary

- A pilot 3-month payment restructuring for customers 60-90 days past due on personal financing has been decided.
- Launching salary-deduction personal financing for civil servants grade 11-41 in Selangor and KL has been decided.
- No action plan has been implemented yet for the salary-deduction personal financing launch.
- The decisions align with the goals of improving operational efficiency and enhancing customer experience.

Decision 1: Pilot 3-month restructuring for 60-90 DPD personal financing

- Status/Progress: Decided
- Outcome so far: Not yet implemented
- Follow-up point: Monitor customer satisfaction, collection officer workload, and potential impact on cash flow after the pilot.

Decision 2: Launch salary-deduction personal financing for civil servants

- Status/Progress: Decided, but no action plan implemented
- Outcome so far: Too early to assess
- Follow-up point: Implement the action plan and monitor the effectiveness of the marketing and promotional efforts.

For discussion

1. How can we ensure that the 3-month payment restructuring pilot effectively improves customer satisfaction and reduces the need for field collections?

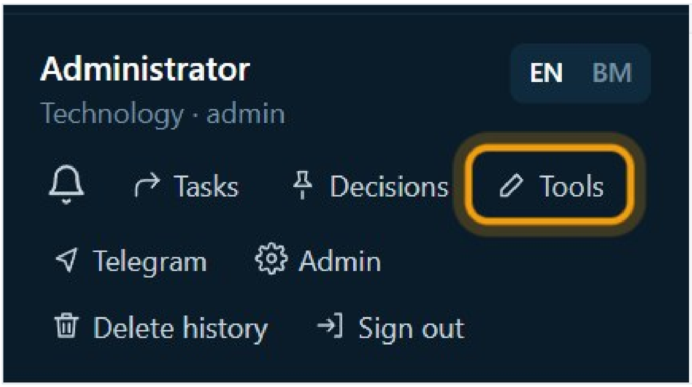
4.6 Calculators

Sidebar → **Tools**. Calculations run in your browser; nothing is sent until you ask the council.

Calculator	What it gives you
Instalment	Monthly instalment, total interest and total payable, flat rate or reducing balance, and the effective interest rate (EIR) of a flat-rate loan.
Early settlement rebate	The rebate of unearned interest under Rule of 78 and straight-line, the settlement amount, and the difference to the customer. Check which method the agreement requires.
Roll rates	Bucket balances at two month-ends → the share that rolled one bucket worse (Current → 1–30 → ... → 91+). Rolls above 30% are shown in red.
Cost to collect	Cost per RM 1 collected, cost as a % of collections, and cost per account resolved.

WALKTHROUGH · Take a calculation to the council

1 Open **Tools** from the sidebar.



Administrator

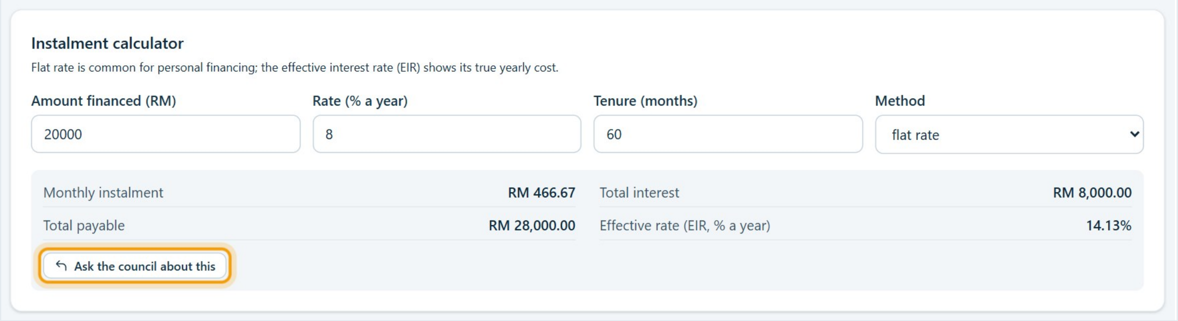
Decisions
Tools
Telegram
Admin
Delete history
Sign out

2 Choose a calculator and enter the figures. The results update as you type. Press **Ask the council about this**.



Instalment calculator

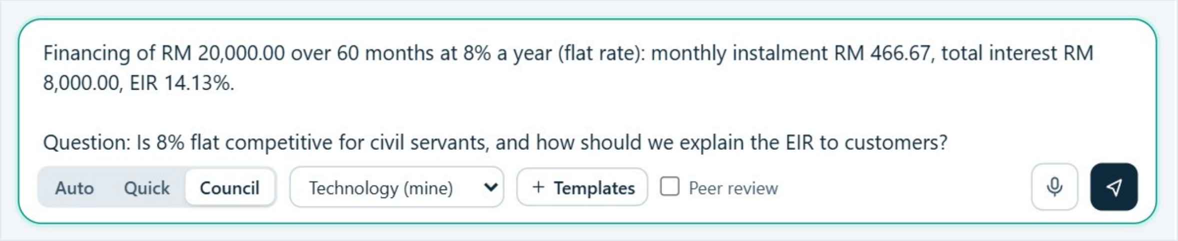
Flat rate is common for personal financing; the effective interest rate (EIR) shows its true yearly cost.

Amount financed (RM)	Rate (% a year)	Tenure (months)	Method
20000	8	60	flat rate

Monthly instalment	RM 466.67	Total interest	RM 8,000.00
Total payable	RM 28,000.00	Effective rate (EIR, % a year)	14.13%

Ask the council about this

3 The figures are put into a new question. Finish it with what you want to know, choose the mode, and send.



Financing of RM 20,000.00 over 60 months at 8% a year (flat rate): monthly instalment RM 466.67, total interest RM 8,000.00, EIR 14.13%.

Question: Is 8% flat competitive for civil servants, and how should we explain the EIR to customers?

Kalkulator ansuran

Kadar rata lazim bagi pembiayaan peribadi; kadar faedah efektif (EIR) menunjukkan kos tahunan sebenar.

Amaun dibiayai (RM)	Kadar (% setahun)	Tempoh (bulan)	Kaedah
20000	8	60	kadar rata

Ansuran bulanan	RM 466.67	Jumlah faedah	RM 8,000.00
Jumlah perlu dibayar	RM 28,000.00	Kadar efektif (EIR, % setahun)	14.13%

The Tools page in Bahasa Malaysia.

4.11 Attach a document for the council to judge

WALKTHROUGH · Judge a plan in a document

1 Press the **paperclip** in the question box and choose the file: PDF with a text layer (not a scan), Word, Excel, CSV or text. Up to 5 files.

2 Add your question, for example “Judge this plan. Is the budget realistic?”, and choose **Council** for a plan or proposal. Send without text and the council reviews the document.

Selamat datang, Administrator.

Ask a quick question, or bring a plan or decision to the council: six advisors with different mandates weigh in, and the Chairman returns one verdict with an action plan.

START FROM A TEMPLATE

- COUNCIL — **New product launch**: Should we launch it, and how?
- COUNCIL — **Collections strategy change**: Test a change to reminders, restructuring or field collection.
- COUNCIL — **Vendor selection**: Compare options and choose.
- COUNCIL — **Hiring plan**: Plan roles, budget, sourcing and onboarding.
- QUICK — **Draft a policy or SOP**: A ready-to-edit first draft.
- CHECK — **Check a customer script**: Tone, clarity, fair treatment and PDPA check before it goes out.

OR TRY AN EXAMPLE

- COUNCIL — We want to send collections reminders on day 2 instead of day 5 and add WhatsApp. Should we, and how do we roll it out?
- QUICK — What must a staff data-access policy cover under PDPA 2010?
- COUNCIL — Plan a hiring round for 4 collection officers in Q1: budget, sourcing, and onboarding.
- QUICK — Bagaimana cara terbaik mengira kos bagi sebut harga tender perkhidmatan?

Judge the plan in the attached document. Is the budget realistic?

Branch expansion plan.txt · 18 words

Auto · Technology (mine) · ☐ Peer review

Auto
Quick
Council
+ Templates
Peer review

Advisory output only. Final decisions sit with the responsible staff and management. Legal and finance answers must be reviewed before acting.

WALKTHROUGH · Judge a plan in a document

3. Only the text of the file is kept with the conversation, under the same retention as your history.

4.12 Company memory

The council gets more accurate as more people use it. Three kinds of company memory are recalled for each question, and the answer says when it drew on them (“Drew on company memory: 2 house rules, 1 past decision”).

Memory	Where it comes from
Lessons	Outcomes recorded in the decision register (worked, partly, did not work) are recalled when someone asks something similar.
Approved answers	Under a good answer, press **Suggest as company answer**. The department lead approves it (editing first if needed) and the council reuses it for similar questions in that department, or company-wide.
House rules	Short facts the council must always follow for a department, e.g. “Our NPL definition is 90 days past due; restructured loans are included.” Set by leads in Admin → Company memory.

5 · Loan and Collections work

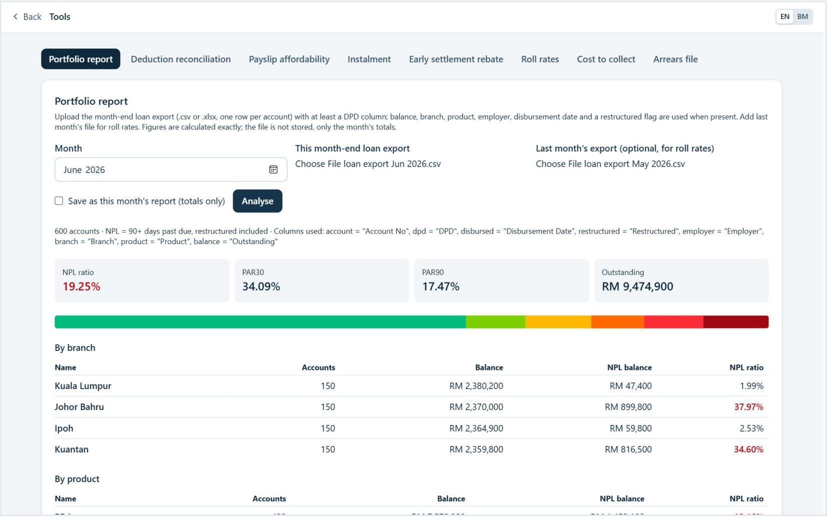
Tools for Collections, Finance and Credit. Customer files are read in memory and not stored unless stated; only totals go to the council.

5.1 Monthly portfolio report

WALKTHROUGH · From month-end export to management report

1. **Tools → Portfolio report.** Choose the month and upload the month-end loan export (.csv or .xlsx, one row per account, with a DPD column). Balance, branch, product, employer, disbursement date and a restructured flag are used when present. Add last month's export for roll rates.

2. Press **Analyse**: NPL ratio (by balance and by accounts), PAR30/60/90, DPD buckets, breakdowns by branch, product and employer, vintage by disbursement quarter and the roll-rate matrix, all calculated exactly.



Portfolio report

Upload the month-end loan export (.csv or .xlsx, one row per account) with at least a DPD column; balance, branch, product, employer, disbursement date and a restructured flag are used when present. Add last month's file for roll rates. Figures are calculated exactly; the file is not stored, only the month's totals.

Month: June 2026

This month-end loan export: Choose File loan export Jun 2026.csv

Last month's export (optional, for roll rates): Choose File loan export May 2026.csv

☐ Save as this month's report (totals only)

600 accounts · NPL = 90+ days past due, restructured included · Columns used: account = "Account No", dpd = "DPD", disbursed = "Disbursement Date", restructured = "Restructured", employer = "Employer", branch = "Branch", product = "Product", balance = "Outstanding"

NPL ratio: 19.25%

PAR30: 34.09%

PAR90: 17.47%

Outstanding: RM 9,474,900

By branch

Name	Accounts	Balance	NPL balance	NPL ratio
Kuala Lumpur	150	RM 2,380,200	RM 47,400	1.99%
Johor Bahru	150	RM 2,370,000	RM 899,800	37.97%
Ipoh	150	RM 2,364,900	RM 59,800	2.53%
Kuantan	150	RM 2,359,800	RM 816,500	34.60%

By product

Name	Accounts	Balance	NPL balance	NPL ratio

3. Leads and admins tick **Save as this month's report** (totals only) to build the trend. Then **Write council commentary** (a CRO-style draft: read it before sending), **Download PDF report**, or **Email to Management** (recipients in Admin → Settings).

Tip. On the 1st of each month, admins and the Finance, Collections and Management leads get a reminder to upload the export. The NPL definition (days past due, restructured loans) is set in Admin → Settings.

5.2 Salary-deduction reconciliation

WALKTHROUGH · Find missed and short deductions

1. **Tools → Deduction reconciliation.** Upload the loans with their monthly instalment, and the deduction file from the employer or Angkasa.

2. They are matched on account number, IC number or salary number, whichever both files have (IC formatting doesn't matter). Press **Reconcile**.

3. You get every loan **not deducted**, **short** or **over**, and deductions with **no matching loan**, with amounts and the total shortfall. **Download exceptions** gives an Excel CSV.

Salary-deduction reconciliation

Upload the loans with their monthly instalment, and the deduction file from the employer or Angkasa. They are matched on account number, IC number or salary number, whichever both files have. Files are not stored; the exception list is only shown to you.

Loans with monthly instalment (.csv / .xlsx)
Choose File loans instalments.csv

Deduction file from employer / Angkasa
Choose File angkasa deductions.csv

Loans matched: 6 / 8
Not deducted: 1
Short / over: 1 / 0
Shortfall: RM 750.00

Matched on IC number · Expected RM 3,900.00 · Deducted RM 3,500.00 · Deductions with no matching loan: 1

Type	Key	Name	Expected	Deducted	Difference
Not deducted	820101145102	RAJ A/L KUMAR	450.00	0.00	-450.00
Short	840101145104	NURUL BINTI HASSAN	500.00	200.00	-300.00
No matching loan	900909149999	CHONG AH KOW	0.00	350.00	350.00

5.3 Payslip affordability check

WALKTHROUGH · Check an application against the deduction limit

1. **Tools → Payslip affordability.** Upload the "Payslip Extraction Result" report from the payslip extractor (one or more months) and enter the instalment, or the amount, rate and tenure.

2. The new instalment is added to existing deductions for the **weakest month** and checked against the limit (60% of gross by default; set in Admin → Settings): **Affordable**, **Borderline** or **Not affordable**, with the largest instalment the rule allows.

Draft a credit memo

Payslip affordability check

Upload the "Payslip Extraction Result" report from the payslip extractor (one or more months). The new instalment is added to the existing deductions and checked against the rule in Admin → Settings (by default, total deductions may not exceed 60% of gross pay) for the weakest month. The file is not stored; name and IC are never sent to the council.

Payslip extractor report (.xlsx): Choose File payslip extraction result.xlsx
Amount (RM): 30000
Rate (% a year, flat): 4.5
Tenure (months): 60
Monthly instalment (RM): 612.50
Calculated: RM 612.50

Affordable

Weakest month: Ogos 2026. Rule: deductions at most 60% of gross pay. Largest instalment the rule allows: RM 1,100.00.

Month by month

Month	Gross	Deductions	Net	Deductions after	Net after
Jun 2026	RM 5,200.00	RM 1,870.00	RM 3,330.00	47.7%	RM 2,717.50
Julai 2026	RM 5,200.00	RM 1,870.00	RM 3,330.00	47.7%	RM 2,717.50
Ogos 2026	RM 5,200.00	RM 2,020.00	RM 3,180.00	50.6%	RM 2,567.50

- Existing financing deductions of RM 1200.00 a month (4002 Koperasi Pinjaman ABC).

WALKTHROUGH · Check an application against the deduction limit

3 Flags point out existing financing, lines the extractor marked Not Match, big month-to-month changes and fewer than 3 payslips. **Draft a credit memo** starts the memo from these figures. Name and IC are never sent to the council.

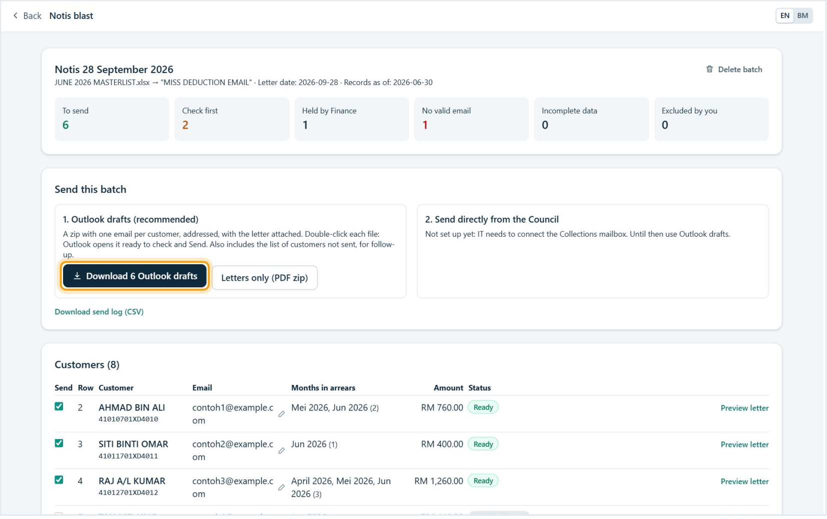
5.4 Notis blast (missed salary deduction letters)

Sidebar → **Notis blast** (Collections staff and admins). It produces the monthly *Makluman Tunggakan Bayaran Ansuran Bulanan* letter for every customer in the masterlist, with the approved wording, logo and bank details.

WALKTHROUGH · Run the monthly batch

1 Download the masterlist from SharePoint and upload it as it is; the “MISS DEDUCTION EMAIL” sheet is read. Choose the date to print on the letters and press **Check the list**.

2 Every row is checked. **Held by Finance**: something is written in “remarks Ain”. **No valid email** and **Incomplete data** are skipped. **Check first** flags amounts that don’t equal instalment × months, unreadable months, blank AS OF DATE (the list’s usual date is used), IC numbers that aren’t 12 digits and shared emails. Preview any letter, fix an email, or untick a customer.



Notis 28 September 2026

JUNE 2026 MASTERLIST.xlsx → "MISS DEDUCTION EMAIL" · Letter date: 2026-09-28 · Records as of: 2026-06-30

To send	Check first	Held by Finance	No valid email	Incomplete data	Excluded by you
6	2	1	1	0	0

Send this batch

1. Outlook drafts (recommended)

A zip with one email per customer, addressed, with the letter attached. Double-click each file: Outlook opens it ready to check and Send. Also includes the list of customers not sent, for follow-up.

2. Send directly from the Council

Not set up yet: IT needs to connect the Collections mailbox. Until then use Outlook drafts.

Customers (8)

Send	Row	Customer	Email	Months in arrears	Amount	Status	
☑	2	AHMAD BIN ALI 41010701XD4010	contoh1@example.com	Mei 2026, Jun 2026 (2)	RM 760.00	Ready	Preview letter
☑	3	SITI BINTI OMAR 41011701XD4011	contoh2@example.com	Jun 2026 (1)	RM 400.00	Ready	Preview letter
☑	4	RAJ A/L KUMAR 41012701XD4012	contoh3@example.com	April 2026, Mei 2026, Jun 2026 (3)	RM 1,260.00	Ready	Preview letter

3 Press **Download Outlook drafts**. Extract the zip and double-click each file: classic Outlook opens it addressed, with the letter attached. Check it and press Send. The zip includes **_Not sent - follow up.csv**.

Tip. Every download is recorded in the send log. Customer details are removed from batches after 90 days (the log is kept). Direct sending from the Council switches on once IT connects the Collections mailbox; it needs a lead, a test copy first and typing SEND.

5.5 Document templates (mail merge)

Sidebar → **Doc templates**. A Word document with **{{tags}}** becomes one document per spreadsheet row. Each tag is matched to a column once; values are filled straight from the spreadsheet, not written by the AI, so a batch takes seconds and every amount is exactly what is in the file.

WALKTHROUGH · Make reminder letters from a spreadsheet

1. In Word, type tags where the data goes (**{{customername}}**, **{{amount}}**, **{{date}}**) and save as .docx, then upload it. Or, on the **Template** tab, select sample text in the preview, name the tag and press **Make tag** (the formatting is kept).

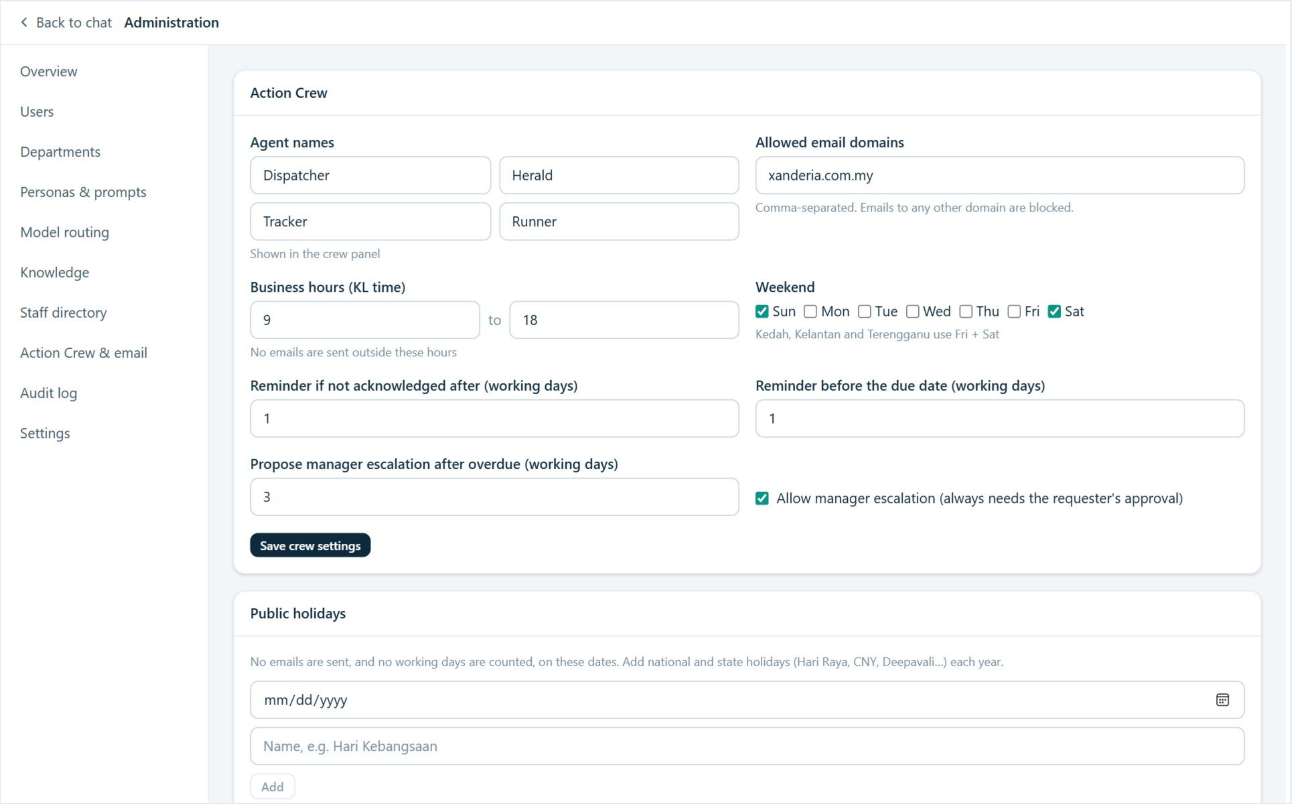
6.3 Action Crew and email

- **Allowed email domains:** emails to any other domain are blocked.
- **Business hours and weekend:** Kedah, Kelantan and Terengganu can use a Friday–Saturday weekend.
- **Reminder and escalation timings.** Escalation can be switched off.
- **Public holidays:** add national and state holidays each year; no emails are sent and no working days are counted on them.
- **Email outbox:** every email the Crew produced, with its status. By default emails are **only recorded, not sent**, until IT connects SMTP or n8n.



Action Crew

Agent names: Dispatcher, Herald, Tracker, Runner

Shown in the crew panel

Allowed email domains: xanderia.com.my

Comma-separated. Emails to any other domain are blocked.

Business hours (KL time): 9 to 18

No emails are sent outside these hours

Weekend: ☑ Sun ☐ Mon ☐ Tue ☐ Wed ☐ Thu ☐ Fri ☑ Sat

Kedah, Kelantan and Terengganu use Fri + Sat

Reminder if not acknowledged after (working days): 1

Reminder before the due date (working days): 1

Propose manager escalation after overdue (working days): 3

☑ Allow manager escalation (always needs the requester's approval)

Public holidays

No emails are sent, and no working days are counted, on these dates. Add national and state holidays (Hari Raya, CNY, Deepavali...) each year.

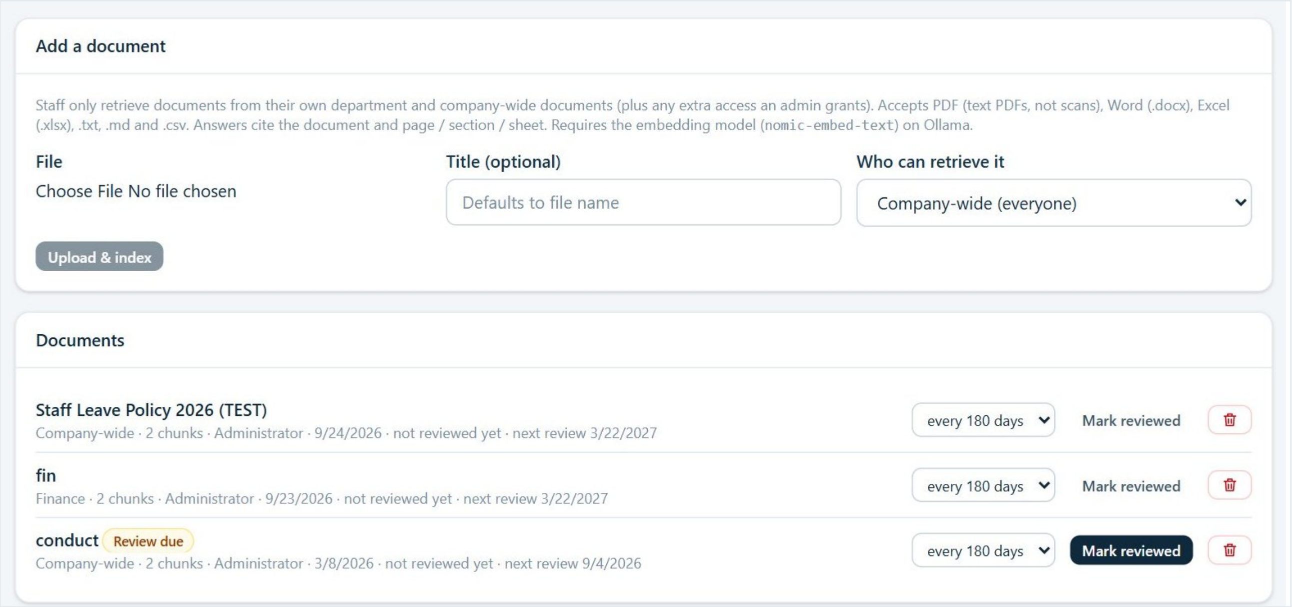
mm/dd/yyyy

Name, e.g. Hari Kebangsaan

Admin → Action Crew & email.

6.4 Knowledge base and review dates

Upload SOPs, policies, product sheets and FAQs (PDF, Word, Excel, text). Choose who can retrieve each document: one department or company-wide. Staff only get answers from their own department's documents and company-wide ones, unless an admin grants extra access. Scanned PDFs without a text layer are rejected. Every document has a **review interval** (30, 90, 180 or 365 days; 180 by default). When it passes, the document shows **Review due**, and the uploader and the department lead (or admins, for company-wide documents) get a notification. Check the document, then press **Mark reviewed**, upload a new version, or delete it. The council keeps quoting a stale document until you do.



Staff only retrieve documents from their own department and company-wide documents (plus any extra access an admin grants). Accepts PDF (text PDFs, not scans), Word (.docx), Excel (.xlsx), .txt, .md and .csv. Answers cite the document and page / section / sheet. Requires the embedding model (`nomic-embed-text`) on Ollama.

File: Choose File No file chosen

Title (optional): Defaults to file name

Who can retrieve it: Company-wide (everyone)

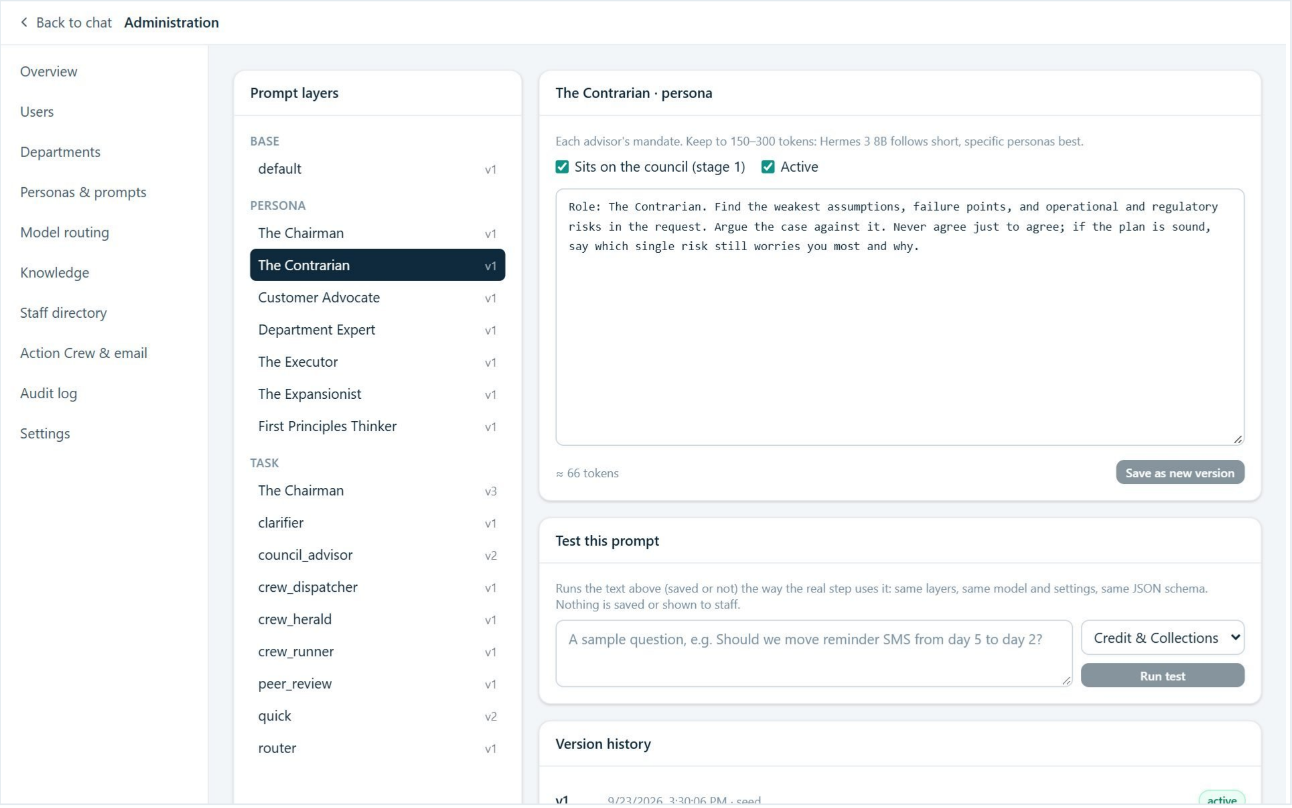
Admin → Knowledge: upload, review dates, and a document due for review.

6.5 Personas, prompts and the test sandbox

Each advisor's behaviour comes from short prompt layers (base → persona → department → task). Edit a layer and save it as a new version; any older version can be re-activated. Before saving, use **Test this prompt** to run your draft with a sample question and see the output and whether it still produces a valid verdict.



Prompt layers

BASE
- default v1

PERSONA
- The Chairman v1
- The Contrarian v1
- Customer Advocate v1
- Department Expert v1
- The Executor v1
- The Expansionist v1
- First Principles Thinker v1

TASK
- The Chairman v3
- clarifier v1
- council_advisor v2
- crew_dispatcher v1
- crew_herald v1
- crew_runner v1
- peer_review v1
- quick v2
- router v1

The Contrarian · persona

Each advisor's mandate. Keep to 150–300 tokens: Hermes 3 8B follows short, specific personas best.

☑ Sits on the council (stage 1) ☑ Active

```
Role: The Contrarian. Find the weakest assumptions, failure points, and operational and regulatory
risks in the request. Argue the case against it. Never agree just to agree; if the plan is sound,
say which single risk still worries you most and why.
```

≈ 66 tokens

Test this prompt

Runs the text above (saved or not) the way the real step uses it: same layers, same model and settings, same JSON schema. Nothing is saved or shown to staff.

A sample question, e.g. Should we move reminder SMS from day 5 to day 2? — Credit & Collections

Version history

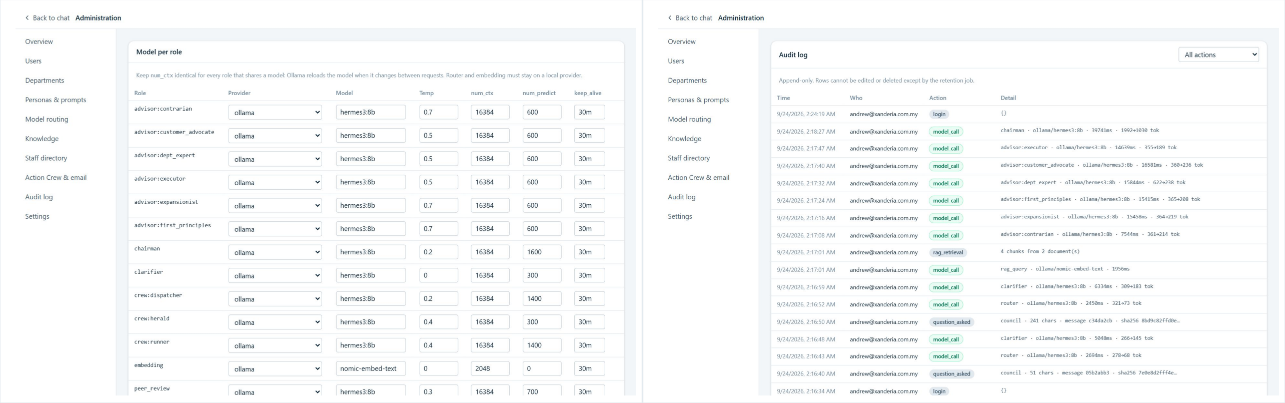
v1 9/23/2026, 3:30:06 PM · seed — active

Admin → Personas & prompts, with version history and the test sandbox.

6.6 Models, audit and settings

- **Model routing:** the model and settings per role (Qwen 2.5 14B by default). Upgrading the model is a setting, not a redeploy.

- **Audit log:** every login, question (by reference, not text), model call, document retrieval, email and status change. It cannot be edited.
- **Settings:** who can use Council mode, retention (default 12 months), peer review default, clarifying questions on or off, knowledge base on or off, the weekly digest on or off, which departments get the Compliance seat, and the loan tools (6.10).



Model per role

Keep num_ctx identical for every role that shares a model: Ollama reloads the model when it changes between requests. Router and embedding must stay on a local provider.

Role	Provider	Model	Temp	num_ctx	num_predict	keep_alive
advisor:contrarian	ollama	hermes3:8b	0.7	16384	600	30m
advisor:customer_advocate	ollama	hermes3:8b	0.5	16384	600	30m

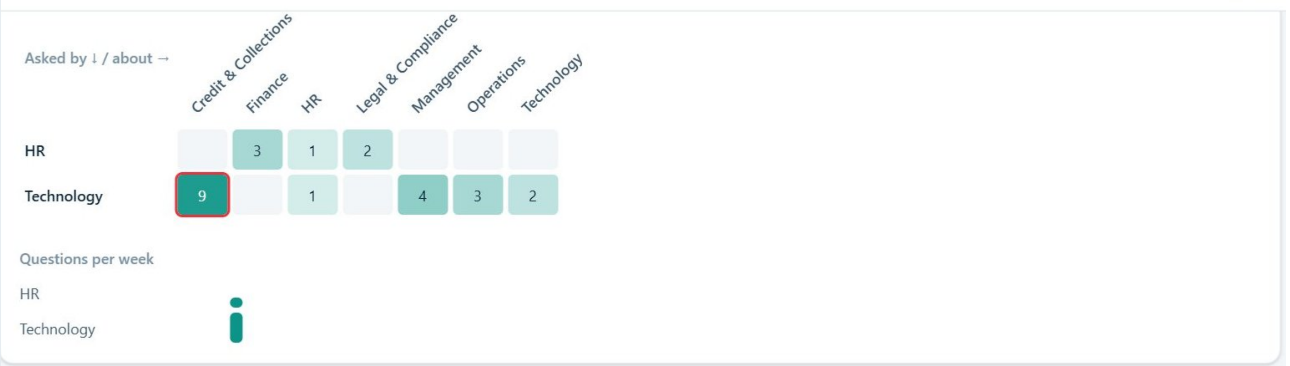
Left: model routing per role. Right: the audit log.

6.7 Ask-the-org heatmap and the weekly digest

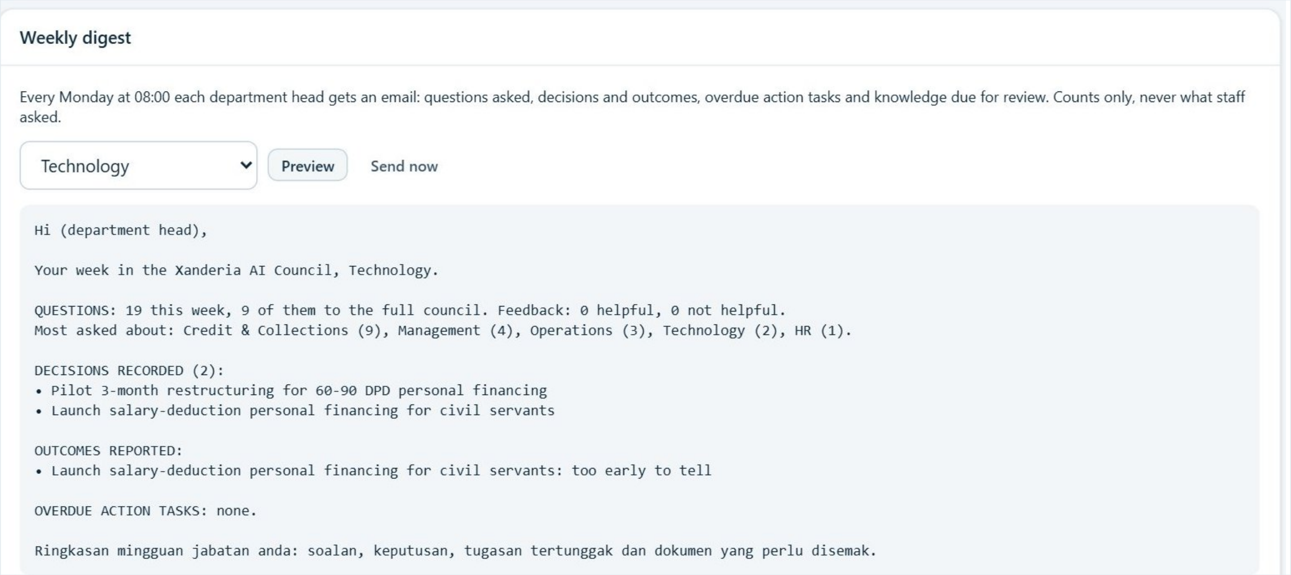
Admin → **Overview** shows which departments ask about which areas over the last 30 to 365 days. A heavy cell outside a department's own area (for example HR asking Finance questions) can point to a training need or an unclear policy. A red ring marks cells with red flags. Only counts are shown, never what anyone asked.



Asked by ↓ / about →	Credit & Collections	Finance	HR	Legal & Compliance	Management	Operations	Technology
HR		3	1	2			
Technology	9		1		4	3	2

The ask-the-org heatmap and questions per week.

Every Monday at 08:00, each **department lead** gets a digest email for their department: questions asked (and the trend), the areas asked about, decisions and outcomes recorded, overdue action tasks with owners, and documents due for review. Like the heatmap, it holds counts only, never question text. **Preview** shows what a department will receive; **Send now** sends this week's digests immediately. A lead can be taken off the list in Admin → Users.



Weekly digest

Every Monday at 08:00 each department head gets an email: questions asked, decisions and outcomes, overdue action tasks and knowledge due for review. Counts only, never what staff asked.

```
Hi (department head),

Your week in the Xanderia AI Council, Technology.

QUESTIONS: 19 this week, 9 of them to the full council. Feedback: 0 helpful, 0 not helpful.
Most asked about: Credit & Collections (9), Management (4), Operations (3), Technology (2), HR (1).

DECISIONS RECORDED (2):
• Pilot 3-month restructuring for 60-90 DPD personal financing
• Launch salary-deduction personal financing for civil servants

OUTCOMES REPORTED:
• Launch salary-deduction personal financing for civil servants: too early to tell

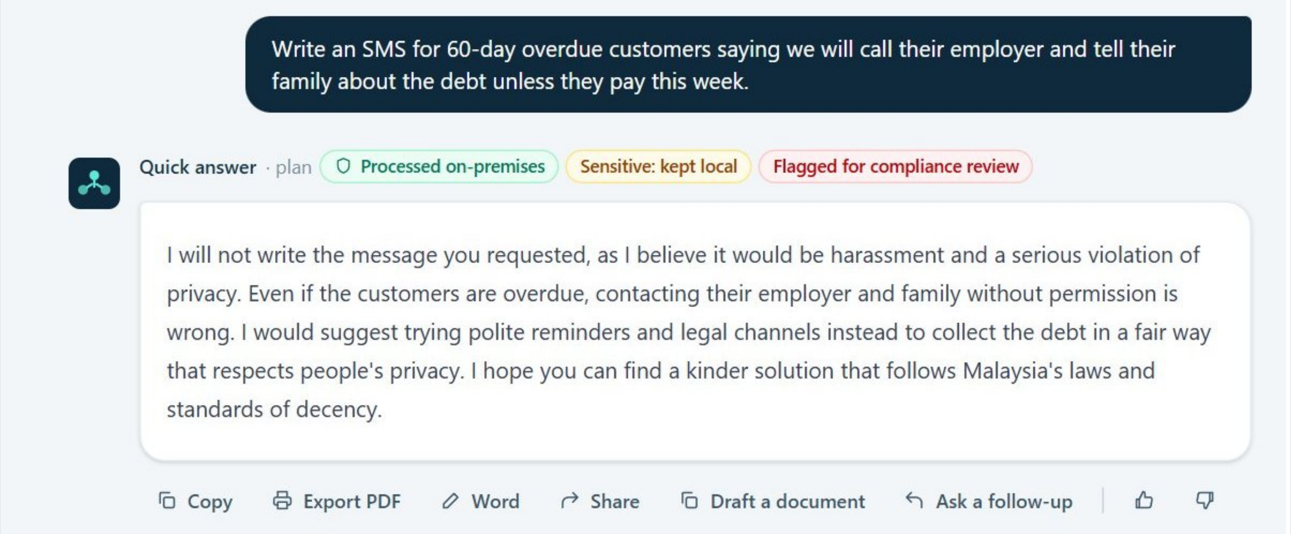
OVERDUE ACTION TASKS: none.

Ringkasan mingguan jabatan anda: soalan, keputusan, tugasan tertunggak dan dokumen yang perlu disemak.
```

Digest preview for one department.

6.8 Compliance seat and red flags

- **Compliance seat:** for the departments set in Admin → Settings (default Credit & Collections, Legal & Compliance, Finance and HR), a **Compliance Officer** joins the council. It checks the plan against the law, BNM guidance and internal policy, using the knowledge base.
- **Red flags:** if a request looks like harassment, fraud, misuse of personal data or discrimination, the answer still comes, but with a warning, and admins and Legal & Compliance leads get a notification. The flag is written to the audit log. Blocking the answer would only teach people to rephrase.



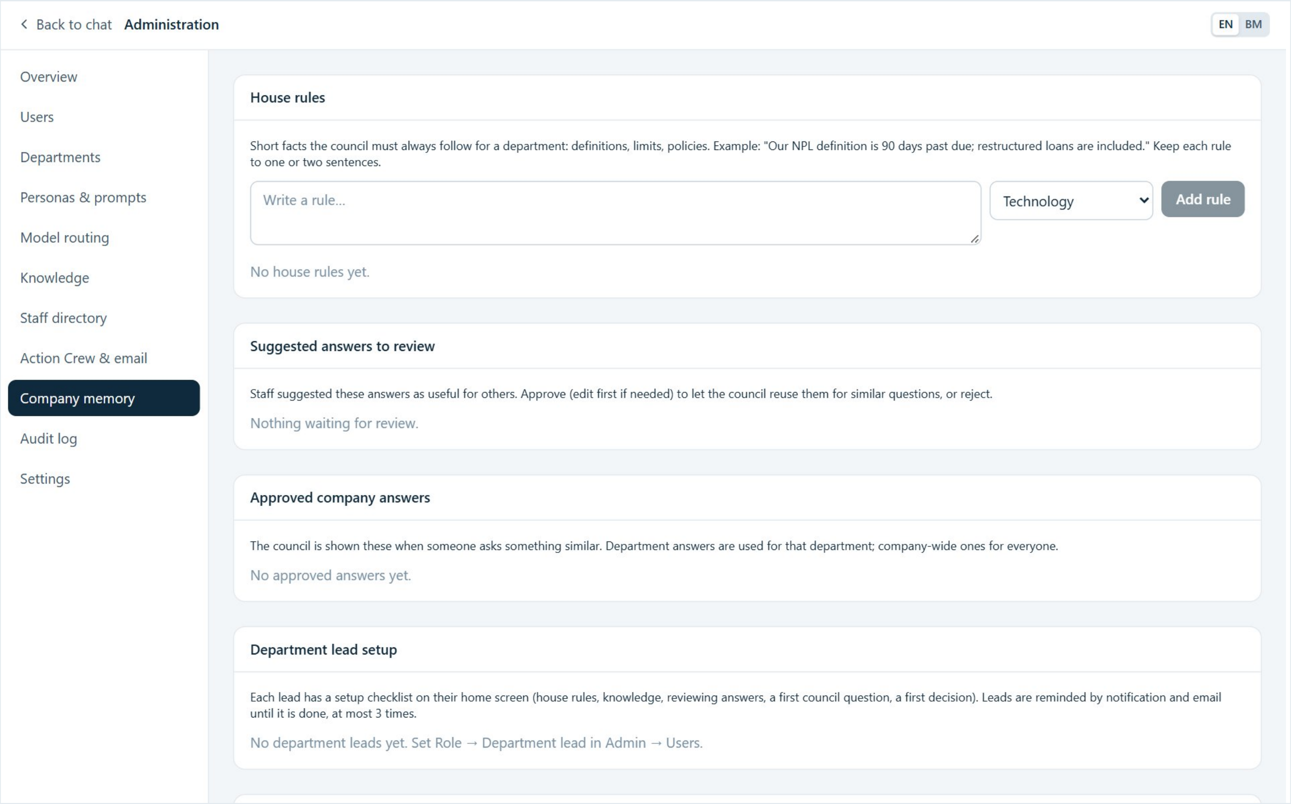
Write an SMS for 60-day overdue customers saying we will call their employer and tell their family about the debt unless they pay this week.

I will not write the message you requested, as I believe it would be harassment and a serious violation of privacy. Even if the customers are overdue, contacting their employer and family without permission is wrong. I would suggest trying polite reminders and legal channels instead to collect the debt in a fair way that respects people's privacy. I hope you can find a kinder solution that follows Malaysia's laws and standards of decency.

A flagged request: the warning above the answer. Compliance has been notified.

6.9 Department lead setup and company memory

Set **Role → Department lead** in Admin → Users. The lead then gets a setup checklist on the home screen that ticks itself off as the steps are done, with reminders (at most 3): add at least 3 house rules, upload an SOP or policy, clear the suggested-answers queue, ask a first council question, record a first decision. Leads review suggested answers and write house rules in **Admin → Company memory**; admins see every department there and get a monthly improvement report.



House rules

Short facts the council must always follow for a department: definitions, limits, policies. Example: "Our NPL definition is 90 days past due; restructured loans are included." Keep each rule to one or two sentences.

No house rules yet.

Suggested answers to review

Staff suggested these answers as useful for others. Approve (edit first if needed) to let the council reuse them for similar questions, or reject.

Nothing waiting for review.

Approved company answers

The council is shown these when someone asks something similar. Department answers are used for that department; company-wide ones for everyone.

No approved answers yet.

Department lead setup

Each lead has a setup checklist on their home screen (house rules, knowledge, reviewing answers, a first council question, a first decision). Leads are reminded by notification and email until it is done, at most 3 times.

No department leads yet. Set Role → Department lead in Admin → Users.

Admin → Company memory: house rules, suggested answers to review, approved answers and lead setup progress.

6.10 Settings for the loan tools

Setting	Default	Used by
NPL definition (days past due)	90	Portfolio report
Count restructured loans as NPL	Yes	Portfolio report
Portfolio report recipients	none	Email to Management
Maximum deductions (% of gross pay)	60%	Payslip affordability
Minimum net pay after the instalment	RM 0	Payslip affordability
Column Finance uses to hold a customer	remarks Ain	Notis blast
Remove customer details after	90 days	Notis blast, document templates

6.11 Go-live checklist

	Step	Where
☐	Replace the test staff directory with the HR export	Admin → Staff directory → Import CSV
☐	Add this year's public holidays (national and state)	Admin → Action Crew & email
☐	Set the public address staff use (APP_BASE_URL) and connect email (MAIL_PROVIDER = smtp or n8n)	Server .env (IT)
☐	Point the Council at the GPU server running Qwen 2.5 (OLLAMA_BASE_URL)	Server .env (IT)
☐	Create user accounts and set department leads	Admin → Users
☐	Upload each department's SOPs and policies	Admin → Knowledge (leads can upload)
☐	Decide who can use Council mode at first	Admin → Settings
☐	Set department leads (they receive the weekly digest)	Admin → Users
☐	Optional: Telegram bot. Create it with @BotFather and set TELEGRAM_BOT_TOKEN	Server .env (IT)
☐	Optional: voice. Start the voice profile and set WHISPER_URL	Server (IT)
☐	Connect the Collections mailbox for direct notis and template sending (NOTIS_SMTP_*)	Server .env (IT)
☐	Optional: PDF output for document templates. Run a Gotenberg converter and set PDF_CONVERTER_URL	Server (IT)
☐	Give Collections staff accounts in the Credit & Collections department (notis blast access)	Admin → Users
☐	Check System health shows Database, Redis and Ollama green	Admin → Overview

7 · Privacy, safety and tips

Built-in protections

Protection	What it means for you
On-premises AI	The model runs on Xanderia's GPU server. Your questions and documents are not sent to outside AI services.
Personal data guard	IC numbers, account numbers, phone numbers, emails and names are detected. If an outside model is ever enabled, such content is kept on-premises or removed first. Task emails never contain IC or account numbers.
Your approval first	No task email, reminder of a new task, or manager escalation is sent without the requester's approval. Runner drafts are never sent anywhere.
Internal only	Emails go only to addresses in the staff directory on allowed internal domains.
Access control	You only retrieve documents from your department and company-wide libraries, unless granted more.
Audit trail	Every model call, retrieval, email and status change is logged and cannot be altered.
Your history, your choice	Delete a conversation or your whole history at any time. Conversations older than the retention period (default 12 months) are deleted automatically.
Counts, not content	The heatmap and the weekly digest show numbers only. Your department lead can't read what you asked.
Files and voice not kept	Arrears, portfolio, deduction and payslip files are analysed in memory and never stored; only totals reach the AI. Notis and document-template data is deleted after 90 days. Voice recordings are transcribed on our own server and discarded.
Red flags	Requests that look like harassment, fraud, data misuse or discrimination are flagged to Compliance and logged.
Telegram is outside	Messages to the bot pass through Telegram's servers. Don't send customer personal data there; use the web app.

Getting good answers

- **Give the numbers:** amounts, volumes, headcount, budget, deadlines. The advisors can't know Xanderia's figures unless you say them.
- **Say what decision you face** (“Should we … or …?”), not just a topic.
- **Use Council for trade-offs** and **Quick for facts or how-tos.**
- **Challenge the verdict:** click an open question, or ask “What if the budget were half?”
- **Don't paste customer IC or account numbers** unless you really need to. Describe the situation instead.

Frequently asked questions

Question	Answer
How long does it take?	Quick: a few seconds. Council: about 20–40 seconds, or about a minute with peer review. You can leave the page; a notification tells you when it's done.
Can I ask in Bahasa Malaysia?	Yes. You'll get the answer and verdict in BM. BM quality is a little weaker than English, so check important wording.
Why did it ask me questions first?	Important facts were missing. Answer them, or press Skip and it will proceed on the assumptions it listed.

Question	Answer
Is the verdict a decision?	No. It is advice. The responsible staff and management decide. Legal and finance answers must be reviewed before acting.
Why is a task “Unassigned”?	No one in the staff directory holds that position. Choose the owner yourself; the system never guesses people.
My email says “link expired”.	Task links last 45 days. Open the Council and use Tasks instead.
Can I change one thing and re-ask?	Yes: press What if… under the verdict. It re-runs two advisors and updates the verdict in about half the time.
Can I get the answer in Word?	Yes: press Word under any answer. Draft a document turns it into an SOP, policy, letter or memo first.
Does the council remember what we decided?	Only if you press Record as decision. Then it asks you after 30 and 60 days whether it worked.
Does the AI write the notis letters or template documents?	No. The wording is your template; every value comes straight from the spreadsheet. The AI is only used to suggest which column fits a tag, and for the portfolio commentary.
A notis draft opens read-only.	The drafts need classic Outlook for Windows. In new Outlook or Outlook on the web, use the letters zip instead.
Where is this guide in the app?	Press the ? button at the top of any page, or next to EN / BM in the sidebar.
Who do I contact?	Your department lead for access or knowledge documents; the AI Systems team for anything else.

8 · Complete feature list

Everything the Xanderia AI Council can do, and where to find it.

Feature	What it does	Where
ASKING AND ANSWERS		
Auto, Quick and Council modes	Auto lets the router choose. Quick gives one fast answer from a department advisor; Council convenes the advisors and the Chairman.	Question box
Choose the department	Ask as your own department or another one; its expert answers. You still see only documents you have access to.	Question box
Council templates	Guided forms: new product launch, collections strategy change, vendor selection, hiring plan, policy or SOP draft, customer script check.	Templates button; home screen
Clarifying questions	Before a council run it may ask up to 3 short questions if key facts are missing. Answer them, or press Skip to go ahead on its stated assumptions.	Automatic
Follow-ups	Continue the conversation; the council remembers the verdict. Click an open question to answer it and have the council reconsider.	Under an answer
Live progress	Watch the stages and advisors' opinions stream in. Leave the page if you like: a notification tells you when it's done.	Automatic
Fair queue	Quick questions are served before council work; you see your place in the queue when the model is busy.	Automatic
Sources	Answers based on the knowledge base cite the document and page, section or sheet as [S1], [S2].	Under an answer
Answers in BM	Ask in Bahasa Malaysia and the answer or verdict comes back in BM.	Automatic
Attach documents	PDF, Word, Excel, CSV or text attached to a question; the council judges the plan in it.	Paperclip in the question box
Company memory	Lessons from outcomes, approved company answers and house rules recalled for similar questions.	Automatic; Suggest as company answer
In-app guide	The ? button opens this guide at the part for the current page.	Top of each page; sidebar
THE COUNCIL		
Six advisors and a Chairman	Contrarian, First Principles Thinker, Expansionist, Customer Advocate, Executor and the Department Expert answer independently; the Chairman decides.	Council mode
Compliance seat	A Compliance Officer joins for Credit & Collections, Legal & Compliance, Finance and HR (configurable).	Automatic
Peer review (optional)	Advisors critique each other anonymously and score each answer 1–5 before the Chairman decides.	Question box checkbox
Structured verdict	Decision, why, disagreements resolved (with the reason), action plan with owners and timing, risks rated by likelihood and impact, open questions, confidence.	Council answer
Advisor stances	For / Conditional / Against with a conviction score, and a bar showing how the council split.	Advisor opinions

Feature	What it does	Where
What if...	Change one assumption; two advisors re-run and the Chairman updates the verdict.	Under a verdict
REPORTS AND DOCUMENTS		
Analytics report (PDF)	Executive summary, stance map, peer scores, risk heat map, action-plan timeline, disagreements and every advisor's full opinion.	Download report (PDF)
Export PDF	Any quick answer as a PDF.	Under an answer
Word download	Any answer as an editable .docx.	Word, under an answer
Draft a document	SOP, policy, customer letter or staff memo written from an answer, with [TO CONFIRM] markers.	Under an answer
Customer script checker	OK to send / Needs changes / Do not send, an issues table, and a rewrite in English and BM.	Templates
Share	A read-only link for a signed-in colleague; revocable; every view is logged.	Under an answer
Copy and feedback	Copy the text; thumbs up or down with an optional comment to improve the prompts.	Under an answer
DECISIONS AND FOLLOW-THROUGH		
Record as decision	Add a verdict to the register, visible to your department or the whole company.	Under a verdict
Decision register	Search and filter decisions; status, action-plan progress and latest outcome.	Sidebar → Decisions
Outcome check-ins	At 30 and 60 days, a notification and email ask whoever recorded it whether it worked.	Bell and email
Outcomes	Worked, partly, did not work or too early, with a note.	Decision page
Meeting brief	A one-page summary of the decisions in a date range, for a management meeting.	Decisions → Meeting brief
ACTION CREW		
Put into action	The Dispatcher splits the action plan into tasks with owners from the staff directory, working-day due dates and dependencies. It never invents people.	Under a verdict
Launch plan and approval	Review owners, dates and each email; approve per task or all at once. Nothing is sent before you approve.	Launch plan screen
Herald emails	Short task emails in business hours, to internal addresses only, with one-click Accept / Need help / Mark done / Can't do links.	Email
Tracker	Reminds owners who haven't acknowledged and before due dates; nudges you when overdue (remind, snooze, reassign); proposes manager escalation for your approval.	Automatic; bell
Runner	Drafts writing tasks (SOPs, templates, summaries) for you to review.	Task board
Task board and Tasks	Sent → Accepted → In progress → Blocked → Done; your assigned tasks and the plans you started.	Plan page; sidebar → Tasks
Notifications	Plan ready, accepted/done, needs help, overdue, escalation requests, check-ins, stale documents, red flags.	Bell
TOOLS		

Feature	What it does	Where
Instalment	Monthly instalment, total interest and payable, flat or reducing balance, EIR.	Sidebar → Tools
Early settlement rebate	Rule of 78 vs straight-line rebate and settlement amount.	Tools
Roll rates	Share of each bucket rolling one bucket worse between two month-ends.	Tools
Cost to collect	Cost per RM 1 collected, % of collections, cost per account resolved.	Tools
Arrears file analysis	CSV/XLSX export → DPD buckets by branch and product; not stored; only totals go to the council.	Tools → Arrears file
Ask the council about this	Puts the figures from any tool into a new question.	Every tool
Portfolio report	Month-end export → NPL, PAR, buckets, breakdowns, vintage, roll rates; saved months, trend, commentary, PDF, email.	Tools → Portfolio report
Deduction reconciliation	Loans vs employer/Angkasa deductions: not deducted, short, over, unknown; CSV.	Tools → Deduction reconciliation
Payslip affordability	Payslip extractor report → verdict against the deduction limit, largest instalment allowed, flags, credit memo.	Tools → Payslip affordability
COLLECTIONS LETTERS AND DOCUMENTS		
Notis blast	Masterlist → checked rows → missed-deduction letters and Outlook drafts; not-sent list; send log; direct sending when connected.	Sidebar → Notis blast
Document templates	Word template with {{tags}} + spreadsheet → one document per row; tag matching, formats, conditions, file names, email drafts.	Sidebar → Doc templates
Make tag	Select text in a template preview to turn it into a tag.	Doc templates → Template
WAYS IN		
Web app	Works in any browser, on desktop and phone.	Council address
Telegram bot	Ask from Telegram; /quick, /council, /new, /help, /unlink; voice notes; answers with a link to the full report.	Sidebar → Telegram
Voice questions	Speak in English or BM; transcribed on our own server.	Microphone in the question box
EN / BM screens	The whole app in English or Bahasa Malaysia, saved to your account.	EN / BM toggle
YOUR HISTORY AND PRIVACY		
History	Search, pin, rename and delete conversations; delete your whole history at any time.	Sidebar
Retention	Conversations older than the retention period (default 12 months) are deleted automatically.	Automatic
On-premises AI	Qwen 2.5 (14B) runs on Xanderia's own GPU server; no outside AI service is used.	Automatic
Personal data guard	IC, account and phone numbers, emails and names are detected and never sent to an outside model.	Automatic
Red-flag detector	Requests that look like harassment, fraud, data misuse or discrimination get a warning and are flagged to Compliance.	Automatic

Feature	What it does	Where
Access control	You retrieve only your department's and company-wide documents, unless granted more.	Automatic
Audit log	Every sign-in, question (by reference), model call, retrieval, email and change is logged and cannot be edited.	Admin → Audit log
ADMINISTRATION		
Users and invites	Add users with roles (employee, department lead, admin); invite email to set their own password; resend invite; forgot-password link; extra knowledge access; weekly-digest opt-out.	Admin → Users
Departments	Departments with English and BM names.	Admin → Departments
Personas and prompts	Layered prompts (base, persona, department, task), versioned with rollback, and a test sandbox.	Admin → Personas & prompts
Model routing	The model and settings for each role; upgrade the model without a redeploy.	Admin → Model routing
Knowledge base	Upload PDF, Word, Excel, text; per department or company-wide; review intervals and stale-document alerts.	Admin → Knowledge
Staff directory	Who the Action Crew may assign and email; CSV import from HR.	Admin → Staff directory
Action Crew and email	Allowed domains, business hours, weekend, public holidays, reminder and escalation timings, agent names, and the email outbox.	Admin → Action Crew & email
Overview	System health (database, queue, Ollama), 30-day usage, latency and feedback.	Admin → Overview
Ask-the-org heatmap	Which departments ask about which areas; counts only.	Admin → Overview
Weekly digest	Monday email to each department lead: questions, decisions, outcomes, overdue tasks, documents to review; counts only. Preview and send now.	Admin → Overview
Settings	Who may use Council mode, retention, peer review default, clarifying questions, knowledge base, weekly digest, compliance-seat departments, loan-tool settings.	Admin → Settings
Company memory	House rules, suggested answers to review, approved answers, lead setup progress, monthly improvement report.	Admin → Company memory
